

23. Conservation measures taken:

Conservation measures taken: Six small islands have been designated as protected areas by a regulation of H. H. The Prime Minister Has been taken.

24. Conservation measures proposed but not yet implemented:

There is a proposal to study and monitor the ecological features of the island, in addition to a proposed action plan for protection and awareness.

25. Current scientific research and facilities:

Several surveys of the breeding birds have been under taken, and sooty falcons have been he subject of a ringing programme.

26. Current conservation education:

Various educational films about the islands have been shown on local television, and a series of documentary films on the breeding birds of the Hawar Islands has almost been completed.

27. Current recreation and tourism:

Recreation and tourism: A 4 stars hotel and the islands have considerable potential for eco-tourism. The Municipality has already built some chalets for visitors, and organizes daily trips to the main island by boat.

28. Jurisdiction:

- 1- Ministry of Housing, Municipality & Environment,
- 2- Ministry of Defence,
- 3- H. H. The Crown Prince Court

29. Management authority:
