

Global ambition
Local action
Climate resilience for all
#DCdays18

COP24-KATOWICE 2018
UNITED NATIONS CLIMATE CHANGE CONFERENCE

Join us for

Development & Climate Days

8–9 December, Katowice, Poland
from 9am to 5.30pm each day with drinks and networking on Sunday evening

The 16th Development & Climate Days (D&C Days) takes place during the middle weekend at the UN Framework Convention on Climate Change COP24, building on the topic of *Global ambition, local action, climate resilience for all*.

D&C Days features dynamic, interactive dialogue, including participatory games, lightning talks, engaging discussions, high-level panels, and more.

We will focus on four themes:

- Resilience through empowerment and access
- Valuing lived experience and local knowledge
- Transparency and downward accountability
- Financing adaptation and managing risk

Within these themes, D&C Days will be tackling big questions, seeking effective and practical answers, and working together on fair solutions.
